### COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Water Resources (Floodplains, River Crossings), Health and Safety, Project Purpose and Need, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential, Conservation Easement

Comment:

It appears that a line is proposed to cut directly through my irrigation pond and hay field, directly affecting my ability to raise hay and pasture livestock and hurting my livelihood. If there is a visual change in my land (property-value devaluation) or a health concern from the lines (human or livestock threat), I will seek legal action against all involved.
